Growth Marketer | DeFi GTM | Product Marketing | Launch Strategy

Atlanta, GA | (770) 861-0301 | tariqawaseem@gmail.com | [GitHub](#)

PROFILE

- Crypto-native growth marketer with 5+ years across DeFi, fintech, and on-chain investing products; experienced in launch strategy, full-funnel growth, product education, and turning complex financial products into simple user journeys.

PRODUCT MARKETING IMPACT

- Turned complex workflows into buyer-ready messaging, one-pagers, step-by-step guides, FAQs, social campaigns, launch notes, partner announcements, and weekly stakeholder updates.
- Grew 4-5 social accounts to 100K+ cumulative followers through audience research, content calendars, founder-led storytelling, launch narratives, and education-first campaigns.
- Built growth campaigns across awareness, activation, education, and conversion, using content, launch messaging, partner campaigns, and user feedback loops to improve adoption.

EXPERIENCE

[CAPACITR](#) | **Product Marketing & Growth Lead** / May 2026 - Present

- Advising on GTM, user onboarding, feature implementation, and product positioning for an AI-enabled financial intelligence platform, translating technical workflows into clear user narratives and GTM messaging
- Building operating systems for product rollouts and market strategy, including weekly health dashboards, revenue & incentive tracking; in addition to executive-ready updates that keep stakeholders aligned as product and market conditions change.
- Creating content workflows across Airtable, Co-work, and Notion for roadmap posts, user insights, product demos, rollout communications, and ecosystem outreach that support adoption and retention.

[40acres Finance](#) | **GTM, Growth & Product Marketing Lead** / Sept 2025 - May 2026

- Owned GTM strategy for a \$20K acquisition program; aligned target-user messaging, partner education, launch updates, and campaign that drove over 2,000+ users and ~\$5M in loan origination to the platform.
- Rebuilt brand positioning, visual identity, and product story for a technical revenue-based lending product aimed at institutional and sophisticated buyer audiences.
- Worked across product, technical, and customer-facing teams to convert roadmap updates into customer-ready collateral, guides, launch copy, rollout comms, and sales talking points.

[Liquid Agent](#) | **Product Marketing Lead** / July 2025 - October 2025

- Designed Liquid Lend, an automated USDC investing product that rebalanced across Morpho, Steakhouse, and Euler vaults. Sourced yield sources, shaped the rebalance logic, and planned the user journey.
- Led the rollout for Liquid Lend by turning a complex DeFi product into simple messaging users could understand. Positioned it for people who wanted their USDC earning on autopilot without chasing vaults.
- Owned the brand content calendar and user education around deposits, yield, and rebalancing. Helped explain why Liquid Lend was a simple way to keep idle stablecoins working for you.

[SCRIB3](#) | **Lead Community Manager** / Feb 2024 - April 2024

- Owned product rollout and client-facing communications for technical financial products, turning complex products into approachable ICP-ready partner and user narratives.
- Supported ecosystem and partner campaigns with financial infrastructure teams from the likes of L1's/L2's, coordinating announcements, education, and rollout moments across multiple audiences.
- Tracked campaign performance across social growth, user acquisition, product adoption, and revenue impact, using reporting loops to double down on the messaging and channels that worked.

SKILLS & TOOLS

- **AI & Dev. Proficiency:** LLM orchestration, agentic workflows, technical documentation, product QA, OpenClaw, Hermes Agent, Hermes Skills, ChatGPT, Tactiq, Claude, OpenRouter, GitHub, VS Code.
- **Tools:** Figma, Canva, HubSpot, Supabase, Postgres, Notion AI, ClickUp, Linear, Google Workspace, Pipedrive, Monday, Typefully, X Analytics, LinkedIn, Excalidraw, and Telegram.
- **GTM & Growth:** campaign strategy, audience segmentation, account research, social growth, partner marketing, activation programs, community acquisition, and campaign reporting.
- **Knowledge:** Revenue based financing, On-chain credit markets, RWAs, ve(3,3), vaults, protocol incentives, liquidity depth strategy, ecosystem grant applications and DAO proposals

PERSONAL BUILDER PROJECTS

- [1] a DeFi zap workflow for looping Pendle yield positions, helping users enter complex PT/YT strategies with fewer manual steps while keeping route logic and execution easier to understand. [\[contract\]](#)
- [2] a reusable AI workflow that turns docs, notes, and technical material into diagrams so agents can quickly explain systems, flows, and product architecture visually. [\[skill brief\]](#)
- [3] a proprietary marketing system that generates post copy from live API data or randomized variants, attached live-rendered or template graphics, and scheduled posts in Typefully for review before publishing. [\[example\]](#)
